- I really loved the course, good job. I think there is no need to change it in any manner. 
- the presentation requirements should be more clear. 
- Very good quality of the course. 
- My favorite course, not just in the winter semester, but in the entire year. The course provided a great overview of social movements and advanced my knowledge about the topic. Students were allowed and absolutely encouraged to engage. We had great lectures and amazing discussions that were well-balanced. I have learnt a lot not just about the given topic, but about other countries and their politics. I loved how every single piece of the readings linked up and form one coherent approach by the end.

-	Fellipe is born professor, he manages to explain material very simply and clearly so that everyone understands. He was willing to offer revision sessions and helped us prepare for the exams which was extremely useful.
-	He was very helpful with additional consultation prior the mid-term and exam.
-	Fellipe, you are really great!
-	I got really valuable comments and gained knowledge that I could use in the frame of my other courses. I do not know whether it is intentional or not but every readings connected to the topics of my other courses. The professor and the TA were extremely helpful and succesfully encouraged us to critically engage in the discussions. I would not change anything in the syllabus and strongly recommend the course.
